The Board has adopted the policy that it is a goal to get contributions from adjacent property owners for additional art, similar to the contribution obtained from KSI for the Reston Town Square sculpture. In addition it has been decided that should consider using a consultant to assist in identification and placement of outdoor art.

COMMUNITY IMPROVEMENT PROJECT

The first community improvement project to be funded by the new Community Improvement Reserve will be landscaping in the medians of New Dominion Parkway and Bluemont Avenue. VDOT has informally approved the landscape design and a formal application requesting a permit to install the landscaping has been submitted.
